Grade 4 | Unit 1 Parent Guide

UNIT 1 | PARENT ANSWERS AND TEACHING NOTES

Grade 4 | Unit 1 Parent Teaching Guide

Companion to Grade 4 Unit 1 Student Learning Book . The student should complete the original five-subject tasks before viewing answers. Do not present this introductory unit as the full Grade 4 school year. Assign advanced work by actual subject mastery, not age.

Mathematics | Answer Key

- 1. 276
- 2. 510
- 3. 368
- 4. 768
- 5. 3/4
- 6. 12/20
- 7. 5/6 > 3/4
- 8. 5/6
- 9. 42 cm
- 10. Use 42-17=42x(10+7)=420+294=714

English Language Arts | Parent Check

ELA: A offers a recorded visitor-count claim, B a personal preference. Counts alone do not prove all reasons for increased visitors.

Evaluate reading accuracy or oral comprehension separately from handwriting, spelling and independent writing. Where a task requires an original response, credit a text-grounded explanation rather than one memorized phrase.

Science | Parent Check

Science: electric lamp input electrical energy; outputs light and thermal energy. Energy is transferred, not lost.

Evidence is a recorded observation or traceable source, not a confident guess. Check safe work habits, accurate concepts and clearly labeled diagrams.

History and Social Studies | Parent Check

History: Tennessee River in north Alabama, Mobile Bay near Gulf Coast, compare maps by scale, date and purpose.

Verify all facts and source attributions against actual maps, credible archives and primary documents where available. Do not accept invented sources or quotations.

Scripture | Parent Check

Scripture: Proverbs 12:17-22 contrasts honest and deceitful speech. Check precise verse claims.

Keep Scripture within its literary and covenant setting. Distinguish what the passage explicitly states from personal application or later interpretation.

Assessment and Reteaching

Record independent, guided or reteach for each objective. If a student struggles, explain with new examples and reassess using unfamiliar material. If independently strong, offer the appropriate higher-grade or Advanced Scholars tasks. Keep identifying information and completed work private.
