AHAVA HOME LEARNING ACADEMY

Grade 3 Language Arts | Chapter 6 | Day 1

Read for Main Idea

READ THE ORIGINAL TEXT

Read this original paragraph: Bees visit flowers to collect nectar and pollen. While feeding, pollen can move between flowers. Many flowering plants depend on animal pollinators to produce seeds. The main idea connects details rather than repeating a single sentence.

Model and discuss: Work the first question aloud with a relevant citation, diagram or explanation. Complete the remaining questions independently; distinguish observation from inference where applicable.

INDEPENDENT QUESTIONS

1. State the main idea of the paragraph.

2. Identify one detail about why bees visit flowers.

3. Which word tells us the statement does not apply to all flowering plants?

4. Write one question the passage does not answer.

Save privately. Teacher responses are on a separate guide.
