Grade 4 Mathematics | Unit 1 | Day 4

Angles and Perimeter

An angle measures a turn. A right angle measures 90 degrees.
A rectangle has perimeter equal to twice the sum of its length and width.

DAILY PRACTICE

1. Find the complement of 35 degrees to 90 degrees.

2. How many degrees are in two right angles?

3. Find the perimeter of a rectangle 13 cm by 8 cm.

4. A square has perimeter 36 cm. Find its side length.
