AHAVA HOME LEARNING ACADEMY

Kindergarten Science | Unit 1 | Day 5

Independent Science Check

READ, OBSERVE AND LEARN

Answer without coaching. Use words, drawing or pointing; the parent records how much help was needed. The objective is accurate observation, not perfect handwriting.

DAILY INDEPENDENT PRACTICE

1. Is a pebble living or nonliving?

2. Name one thing a growing seedling needs.

3. Is ’the leaf has three points’ an observation if you can count them?

4. Explain why moving toy cars are not necessarily alive.
